## **Skills**

Database Admin  
Organization  
Teamwork

Leadership  
Problem-solving  
Learning/Adaptation

Computer Literate  
Communication  
Work Ethic

## **Self-Concept**

The ability to bring about major change in people's lives in the long run through minor daily improvements is what wakes me up in the morning. Days will never be the same so I always adapt to the environment because that's when discipline meets creativity allowing me to operate at the most optimum level, and more.

I am a visionary. Able to align my short-medium term goals with the expectations required by a company in order to help place my footprint in the company's long-term objective. Possessing the ability to take the lead when required, I am an overall team player with the ability to listen for comprehension and mediation. A leader but not a boss. I possess an extreme work ethic and will admit that I am not the most experienced and there are fields where I acquired basic knowledge, however, given the opportunity I will place my all in learning whatever necessary to become exceptional in the topics.
